2002

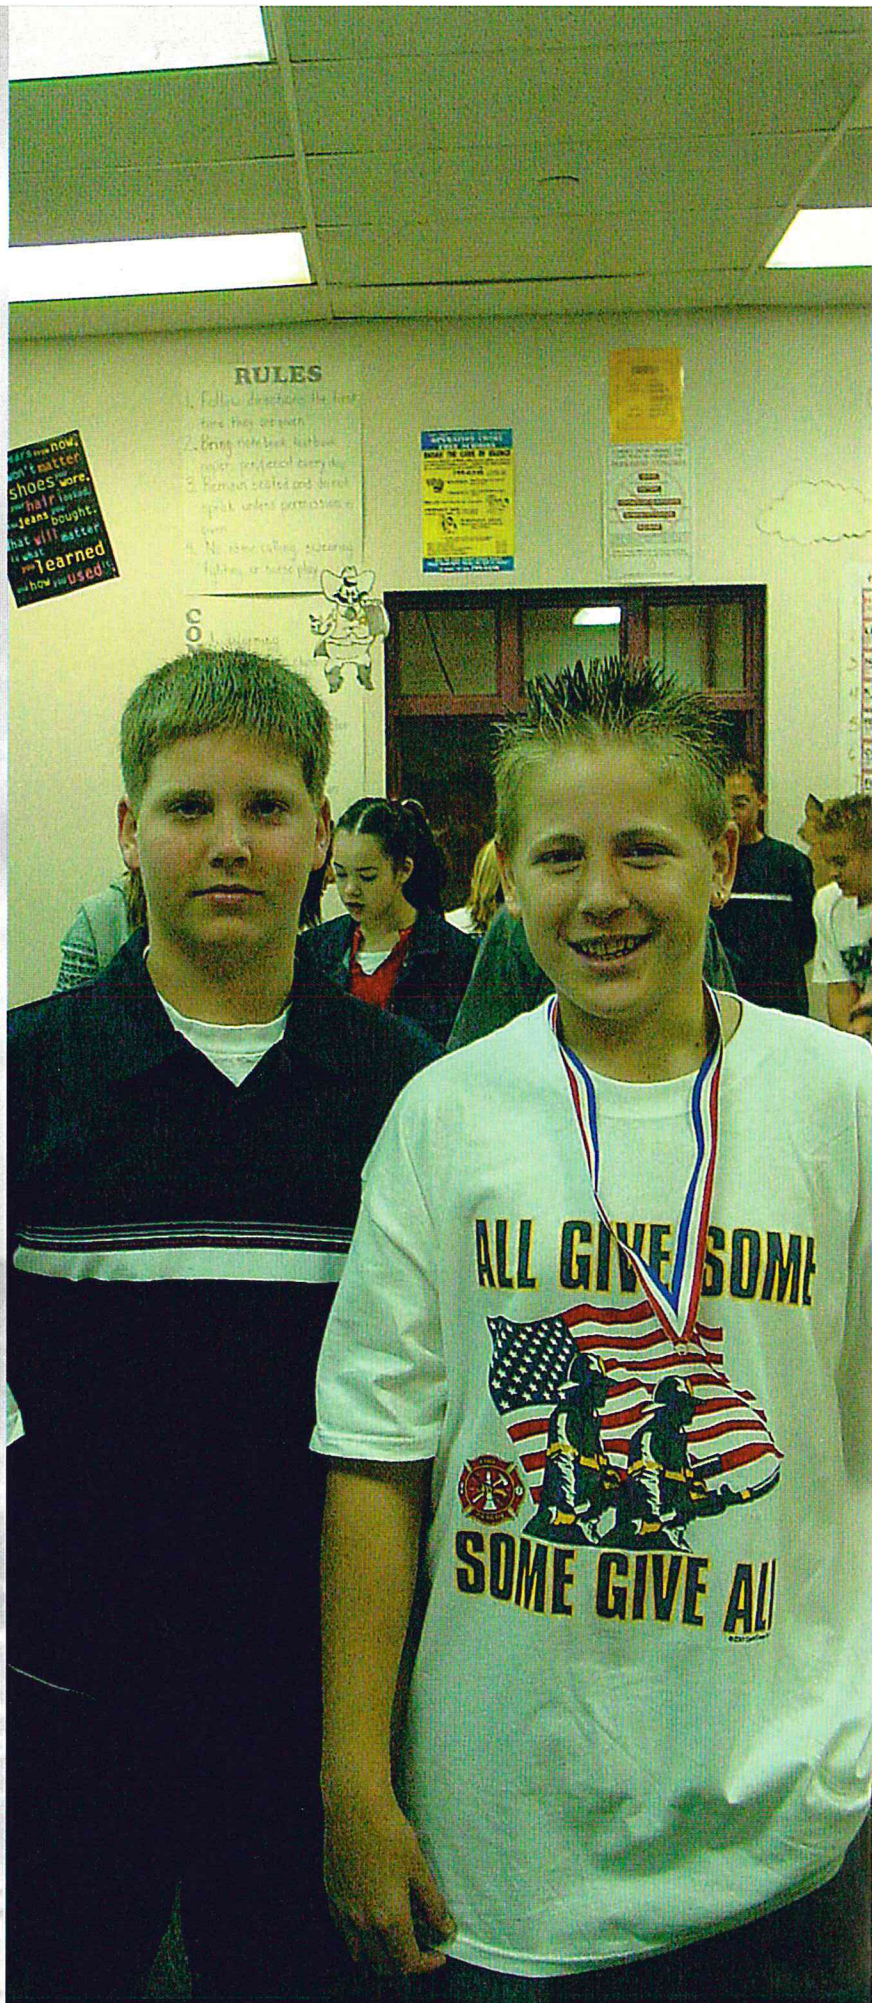

September 11, 2001, seemed like any other day. At 9:36 A.M. that had all changed when the terrorist attack brought America to its knees. The high-jackings of United Flight 175, America Airlines Flight 11, and America West Flight 77 that crashed into the World Trade Center and Pentagon were the most cowardly attacks ever seen. Had it not been for the heroes of a small group of passengers on flight 93 this tragedy would have been much worse.

We asked some teachers for their opinions about the situation and they responded with about the same comments the rest of us were making. We are extremely sad the cowardly manner. Mrs. Washington said, "The students were shocked, some worried, and scared. Since we have such intelligent students they were able to analyze the problems the incident caused the country." Ms. Long and fellow students collected money and gave it to the Red Cross. She stated, "Greenspun students have always helped people that are in need. To that effect we have raised \$1400 dollars for the Red Cross." Mrs. Deike made red, white, and blue ribbons for students to buy for the Red Cross also. The Greenspun students of course continued lending aid with that fundraiser. Mrs. Deike and Mr. Giangrosso wrote and illustrated a children's book for the firefighters that were lost in this tragedy. "We are living in a time when there is a lot of unrest. We are saddened for what our country has experienced. Never in my life have I experienced something like this. I am extremely happy for the way the people in our country came together as one," said Mrs. Washington.

America and the American people are and will remain strong and steadfast in our pursuit of justice. We are a great nation and not only will we survive, we will come back stronger and greater than ever.

# EVERLASTING MEMORIES

8TH GRADE

It's 7:15 A.M. on August 31, 1999, as the new 6th graders prepare for what will be, for some, a terrifying or exciting first day of junior high. Laryn Finnegan remembers how she felt, "I remember being very nervous and so scared that I almost peed my pants!" Lauren King says, "I was afraid I would not get to my classes on time, or even find them. Plus, there were all these new teachers and people, it was just nerve-wracking!" Then, there's Adam Tebbs, who says, "I was not a bit nervous. Actually, I was kind of excited in a way because it was something new and exciting - an adventure!"

It's now June, 2002, and we're preparing for our final exams, cleaning out our lockers for the last time, signing year-books, discussing which high school we will be moving on to, and preparing for our final dance at Greenspun. Our dolphin days are ending, taking along memories we'll have for a lifetime, memories of favorite classes and teachers, lunch-time gab sessions (lunches where we talked more than we ate), book bags that weighed more than we did, learning to work our locker combinations, what styles were in, what music was cool, notes that were passed, and friends that were made!

Now that Laryn, Lauren, and Adam are in the 8th grade and top dawgs of the school, this is what they have to say: "I love it. It's the best finally getting to be at the top after three years," says Laryn. "But now that I am just getting settled, we have to leave and go off to high school, which is going to be pretty cool, but scary," adds Lauren. Adam also thinks being at the top is cool, but remarks, "I'm going to be sad because all my friends and I are going to get split up, so I am trying to enjoy it while it lasts!" Leaving Greenspun will probably be pretty hard for everyone. No matter what we go through, we'll have our **memories** in our hearts, and forever they will stay.

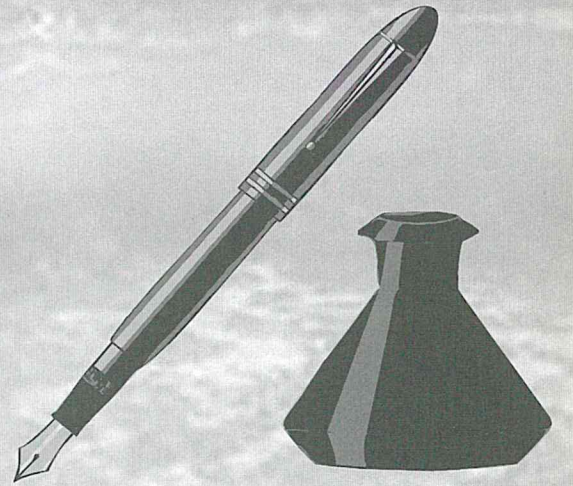

1) Ryan, Nick, Kyle, Cody, and Danny hangin' out at lunch on halloween 2) Trashman Kaley, Hillbilly Nicole, and Cristhina as a cat on Halloween. 3) Carrie, Kayla, Taryn, Amanda, and Jordan havin' fun at the Halloween Dance. 4) Playin' in the courtyard are Jane, Jamie, Lycette, and Amanda as "Hot Dog on a Stick" girls, & Bri and Becca as Winnie-the-Pooh & Tigger.

# WHAT IS SEVENTH GRADE?

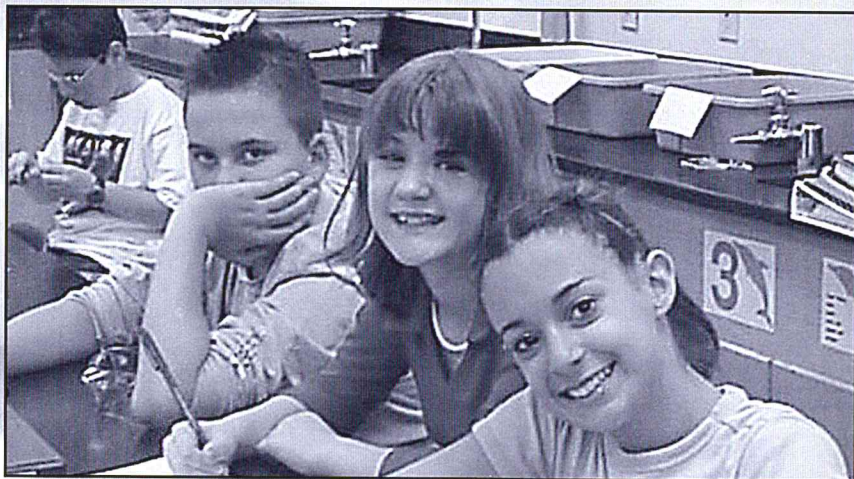

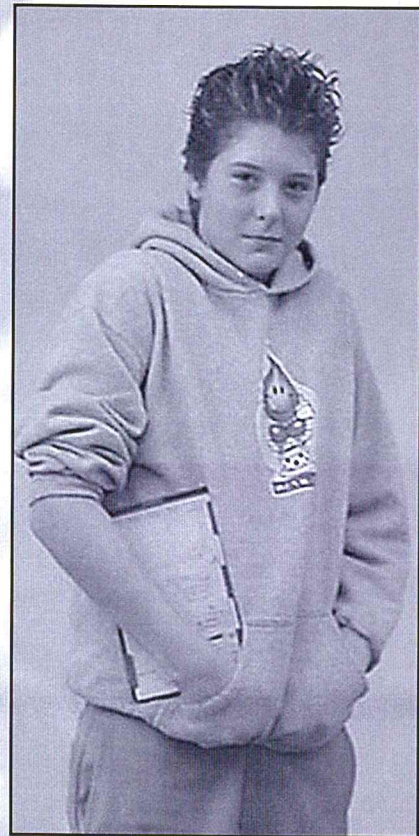

Seventh grade is a time of new beginnings, challenges, and more responsibility.

"I remember starting this year, having to learn a new locker combination, having to meet new teachers, trying to figure out which lunch I had. It was very hectic, but I'm getting used to it now," says Maria Agnos. Maria also believes that she has to be more responsible to succeed this year. "I'm having kind of a hard time, but it makes me feel more grown up."

Sara DeHart sees things just about the same. "In the beginning of this year, I thought it would be really hard to keep on top of things, but now it's really easy," she states. She also thinks that her challenges are helping her prepare for things much more difficult later in life.

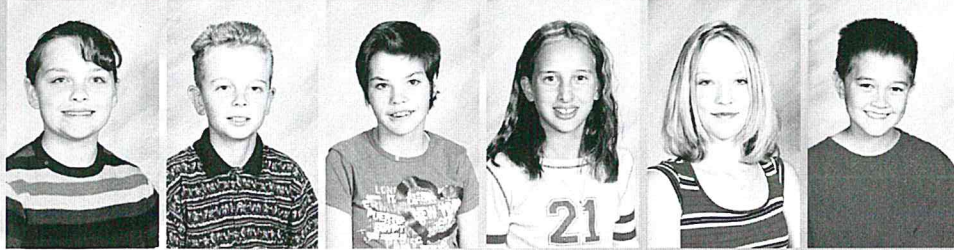

"Once, two teachers assigned projects at the same time. I almost blew a gasket, but then I realized that it was nothing compared to what I'll have to deal with in college!"

In the end, seventh grade is not just another year. It is a time of growth and discovery. It is a time of happenings and memories. It is a time that will not be forgotten, as the journey of life is continued.

# THE WAVE TO A NEW BEGINNING!

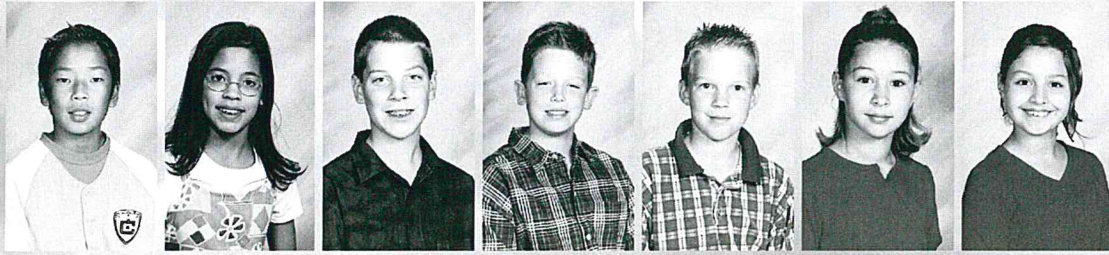

Life is full of many milestones, each one seeming greater than the one before. I'm sure that few would disagree that entering junior high school is a significant one. The entrance to Greenspun is a wave of excitement and anxiety. So we interviewed some sixth grade students to find out how they have managed to surf this wave.

Brianna Julich says, "The textbooks are a pain to carry around," but otherwise she has been well-prepared for entering junior high.

Julian Diaz says that passing period should be longer than it is because you need more time with friends. "My locker? Let's not go there. It's so messy, but I still use it."

Morgan Hernquist says, "I have so much homework in English." She also said "P.E. is my favorite class because it's just fun, and you have no homework, either."

The loving memories of the sixth graders are here to stay as the wave fades out into another generation.

WORDS FROM MY TEACHERS...

# S t a f f

# Teachers

*give their all.*

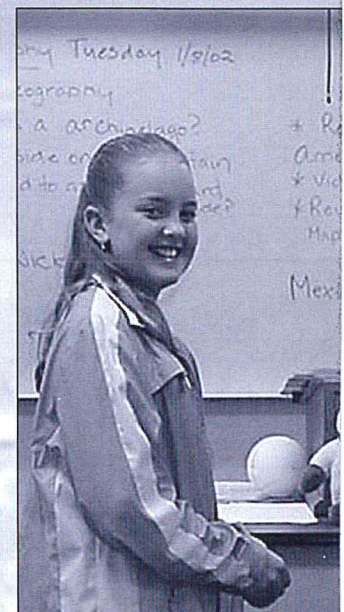

---

For some people school is a sacrifice, to wake up every morning, and get there on time. But for others, school is not just a place for learning, but our second home. Without our teachers, who would be our home makers? We come here wrapped up in ourselves, not even thinking about the sacrifices our teachers make for us. To us teachers are not just teachers, but educators, friends, our guides to success. "I'm crazy about my job. I think my students are interesting, funny, playful, and mature. I would say my students are a great bunch of kids," said Ms. Anderson.

And where would we be without that teacher we felt we could always turn to with our problems? "I love my job," says Mr. G. "My students all have a lot of potential. They just don't know it."

"I think they are God's creations and should all be loved. I love my job. All my students are a reflection of our future," said Ms. Johnson.

Teachers are wonderful people and should all be acknowledged for the effort and time they have given to help us succeed to become the best we can be.

Mrs. Thompson, Mr. Boshko, and Ms. Towery stopped to pose for our camera.

**What do you enjoy most about your job?**

**The students.  
Mr. J. Thompson**

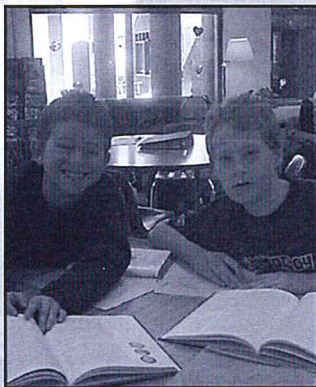

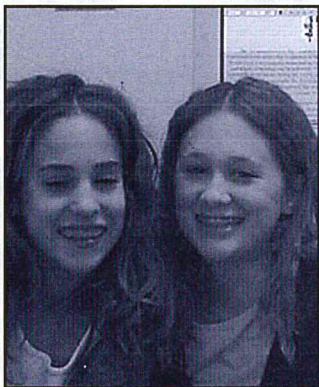

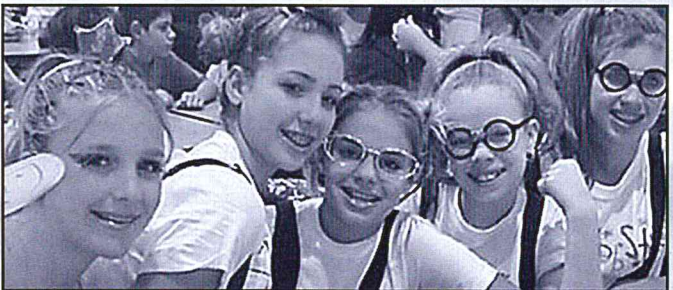

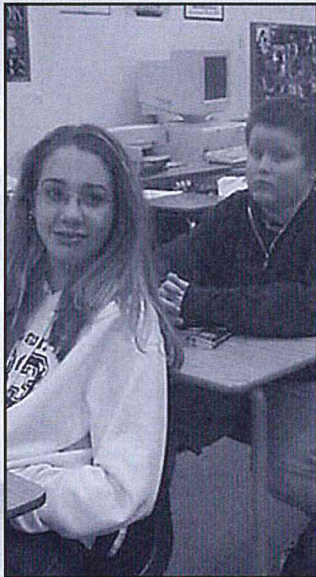

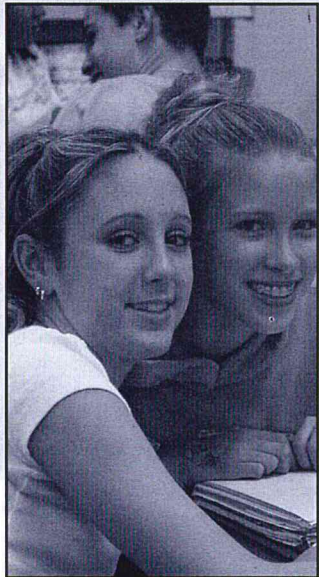

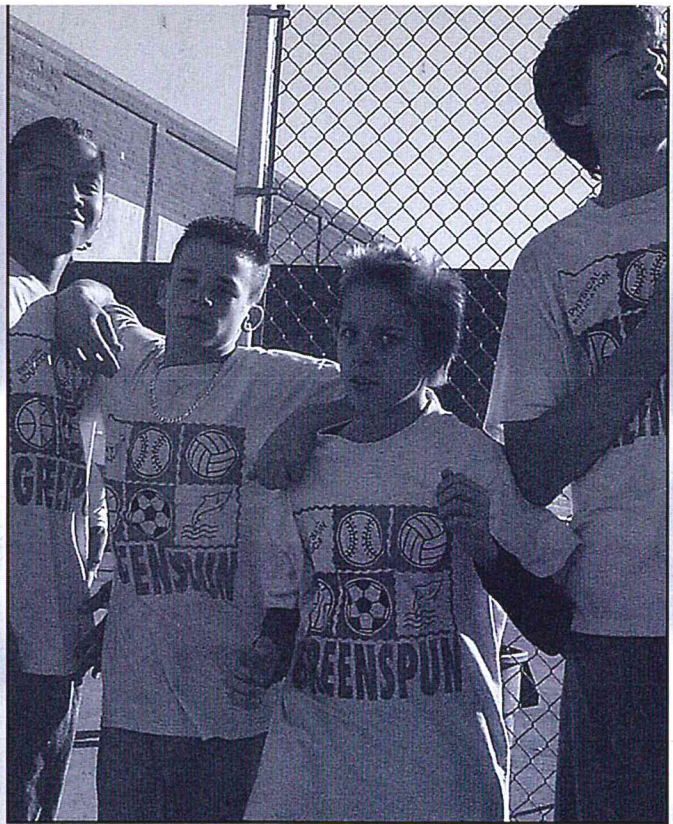

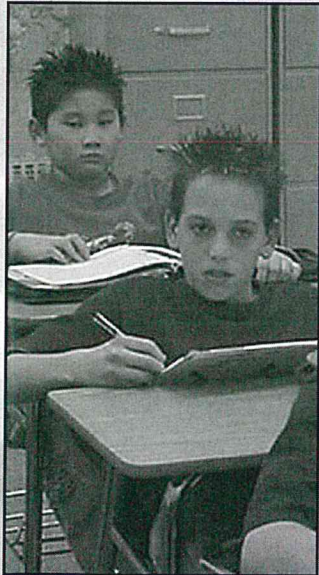

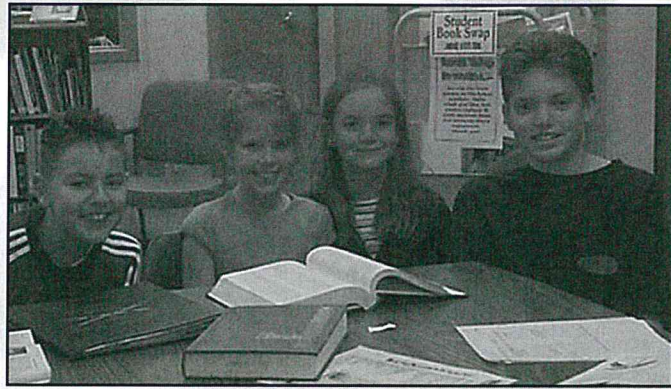

**The kids.
