GREENSPUN

## *If I Ruled the World...*

### School Song:

We're the school where hope and  
pride live throughout our halls;  
our great spirit shines above  
Greenspun Junior High.  
Friendship and true loyalty still go  
hand in hand;  
with the dolphin spirit we love  
Greenspun 'til the end.

When you look in this memory book be it now or ten years from now, you can remember all of the good times you had at Greenspun. It will remind you of all the friends that were there for you through the good times and the bad. In this book are memories of dances, basketball games, trips, and activities or clubs you participated in. I hope that every time you think of Greenspun you remember not only the great fun we've had, but also the academic advantages that were made available to us due to the efforts of the staff. Our yearbook theme "If I ruled the world" was selected to help you understand that you can do whatever your heart desires, just as long as you set your mind to it. So keep this memory book forever and follow your dreams!

*Where students learn to succeed  
and succeed to learn.*

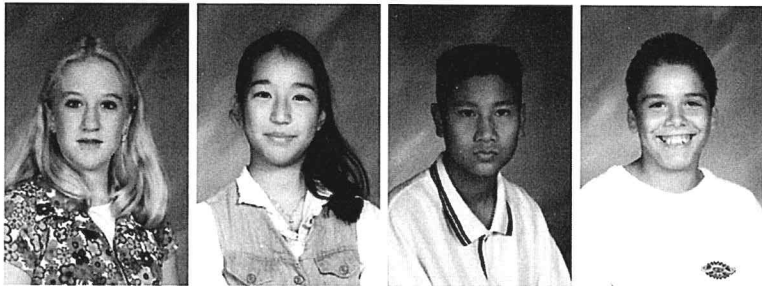

**This year was full of fun, friends, and memorable moments. Whether we found friendship or rediscovered an old friend, this year was a special one. Some of us will keep in touch while others will drift apart, but whatever happens, we have our fond memories that are held within the pages of this book.**

## How we learn and create . . .

### The different levels of the learning taxonomy

1. Knowledge- knowing something that you've read
2. Comprehension- understanding what you've read in your head
3. Application- applying what you learned to inform others to know
4. Synthesis- that you can use all that knowledge to write a book or a show
5. Evaluate- then take the mix previously stated to see, just how great your creation is rated

“One cannot create unless you've used all the levels of learning.”
